

THE PRINCE
CHARLES HOSPITAL
FOUNDATION

Khera Kim

Nurse Practitioner,
Dementia & Delirium

There are many ways to say thank you

Sometimes, after receiving care, patients and families want to find a meaningful way to say thank you.

The Prince Charles Hospital Foundation is here to help you explore the different ways you can express your gratitude, give back or support future patients and families.

Your gratitude can make a difference.

Everyone is different, and whatever saying thank you means to you, we'd be happy to listen to your experience and have a conversation.

You might choose to:

- Thank someone who made a difference to your care
- Make a donation to give back to the hospital that cared for you or your loved one
- Find out about our hospital volunteering program
- Share your story and the difference your care has made
- Start a fundraiser and bring family, friends or your community together
- Leave a legacy in memory of someone special
- Leave a gift in your Will to make a difference for future generations

When people like you choose to share their gratitude, it can make a meaningful difference through compassionate patient-care programs, life-changing medical research and vital equipment that support patients and families now and for generations to come.

We're here to help
